Statistics—Committee on Manufactures and Commerce.

That portion of the message under the heading of "Conclusions" referring to Agriculture and Mines—Committee on Agriculture and Mines and Mining respectively.

Mr. Woolley asked if the minutes, names of the members of standing committees, etc., had been printed. The President enquired that they had not yet been received.

There was a long pause in the proceedings at this point. Finally Mr. Woolley asked for information in relation to the disposition of the reports accompanying the Governor's message. The Chief Clerk announced that they were in the hands of the Chief Clerk of the House, after which quietude again prevailed for several minutes.

Mr. Barton presented a bill changing the charter of Kaysville. It strikes out Sec. 15 of the act and inserts in lieu thereof a provision in relation to stray animals, to tax and regulate dogs, etc. The bill was read.

Dr. Hammond moved to refer it to the committee on municipal corporations, when a discussion arose as to whether or not the reading was to be regarded as the first one.

Mr. Taylor moved an amendment that the reading be so considered. Accepted, and the motion prevailed.

Doing nothing was again the order for some time.

The minutes as printed were received and distributed.

A communication was received from the House announcing its concurring in the joint resolution in relation to a committee on compilation, and that the said committee on the part of the House had been appointed.

The Chair appointed as said committee on the part of the Council—Messrs. Grover, Woolley, Grant, Hammond and Barton.

Mr. Taylor thought it advisable to have the minutes as printed read, so that corrections might be made before they went into the journals.

The Chair announced that reading would be deferred until rules were adopted.

Prayer by the Chaplain. Adjourned.

## HOUSE OF REPRESENTATIVES.

2 p.m.

Session opened in usual form.

A message from the Council was received giving notice of a resolution for a joint committee to recommend a distribution of the various subjects of the report of the committee on revision and compilation of the laws, to consist of five from the Council and eight from the House, and asking the concurrence of the House.

Mr. Dusenberry moved to adopt.

Mr. Hatch moved to postpone until the day after the committee had made its report, when the subject should come up as special business. Motion lost.

The motion of Mr. Dusenberry, to concur in the resolution of the Council, prevailed.

The Chair announced for the committee on the part of the House, Messrs. Thurman, Peery, Morgan, Clark, Rider, Cummings, Hatch and Houston.

Mr. Dusenberry presented the account of H. B. Cluff as Assessor and Collector for Utah County, showing delinquent taxes and petitioning for payment of money due him.

On motion the petition was referred to the committee on claims.

A petition was presented by A. Kane County, noting delinquent taxes which he had paid amounting to \$32.50, and asked relief. Referred to the committee on public funds.

Also one from W. D. Johnson, Deputy Collector for Kane County,

saying persons owing \$81.06 taxes for 1883 had removed and he had paid the same and asked relief. Referred to committee on public funds.

John M. Nevinhurst presented a petition asking to change his name to John M. Hurst. Referred to the committee on judiciary.

The joint committee to fix the hour for daily meetings of the two houses, reported that they had fixed the hour at 2 p. m. each day, except on Saturday, when the session should begin at 10 a. m. Report adopted.

Mr. Francis submitted the following bill:

First—A bill to fill a vacancy in the office of Territorial Delegate, and empowering the Governor to call an election on the death of a Delegate within thirty days.

Second—A bill to govern the sale of patent rights, requiring submission of the patent in any county to the probate judge, and make a certain oath in reference to the patent, and his right to sell the same; requiring the probate judge to keep a book of record, issue a certificate, etc.; and the bill also provides penalties. On motion, referred to the committee on manufactures and commerce.

Third—A bill of offenses to animals, preventing over-driving, beating, failure to take proper care of, and prescribing penalties; also, making it unlawful for anyone to permit domestic animals suffering with contagious diseases to run at large, and prescribing penalties for various abuses to animals. On motion, referred to the committee on judiciary.

Fourth—A bill authorizing limited partnership. The bill by motion was only read by title, and then referred to the committee on manufactures and commerce.

Mr. Rider offered a resolution extending the freedom of the House to the Hon. Wm. Jennings, Geo. Q. Cannon, members of the Utah Commission, General McCook and officers, Federal officials, etc.

The reading of the resolution being called for, it was found the ground was mostly covered by the rules. The motion was withdrawn, and in answer to inquiry the Speaker said the House was free to all citizens of the United States.

A message from N. W. Clayton, auditor of public accounts, presented the claim of J. R. Wilkins, clerk of the First District Court, and the same was referred to the committee on public accounts.

At 3.15 o'clock, adjourned.

## A Pleasant Picture.

"There is a man," said his neighbor, speaking of a village carpenter, "who has done more good, I really believe, in this community, than any other person who ever lived in it. He can not talk very well in prayer meeting, and he doesn't often try. He isn't worth two thousand dollars, and it's very little that he can put down on subscription papers for any object. But a new family never moves into the village that he does not find them out, to give them a neighborly welcome and offer any little service he can render. He is usually on the lookout to give strangers a seat in his pew at church. He is always ready to watch with a sick neighbor, and look after his affairs for him, and I've sometimes thought he and his wife kept house plants in winter just to send little bouquets to invalids. He finds time for a pleasant word for every child he meets, and you'll always see them climbing into his one-horse wagon when he has no other load. He really seems to have a genius for helping folks in all sorts of common ways, and it does me good every day just to see him on the street."

At noon May crept up to 86%, and showed some steadiness. February wheat sold as high as 91 1/2, fell off to 89%, and shortly after the noon hour was quotable at 89% to 90. Corn weakened in sympathy with wheat, and May sold down to 67.

## Wall Street.

New York, 17.—Governments strong; stocks 1/4 to 3/4 per cent. lower for the general list, and 1 1/4 for Oregon Transportation, which broke to 23. Subsequently there was a rally of 1 to 1 cent, and the market was quite firm for half an hour. About 11.30 the market became much unsettled. All sorts of unfavorable rumors, none of which could be authorized, were put afloat to accelerate

the decline in prices, and false reports were sent to many leading cities, stating that various firms and individuals were in trouble. During the last hour there was a sharp and active buying movement in the entire list by leading operators, which carried prices up from half to three per cent. from the lowest point of the day.

The executive committee of the Delaware, Lackawanna and Western Railway the afternoon authorized Jay Gould to present to Commissioner Fink a proposition to arbitrate the matters in dispute between that company and the roads comprising the eastern trunk line pool. Commissioner Fink accepted the proposition and withdrew the western roads in regard to the Lackawanna Co. This road is to enter the pool, and the allotment of percentage will be settled by arbitration. This practically ends the trunk line troubles, and removes the disturbing element which "bears" have used against the market with considerable effect for some days past.

Northern Pacific securities advanced after the election of Harris as President. In final dealings there was a general advance. Closed strong. Compared with last night the closing prices were 1/4 to 1/2 per cent. higher. Oregon improvement dropped 10 points to 49 and closed at 41 bid.

The features in the mining market this morning were Bodie Consolidated, which advanced to 8.00, and Standard Consolidated, which advanced to 6.00, as favorable reports had been made in these properties. The remainder of the list was also strong. Horn Silver selling 6 1/2, Con. Virginia 27, Tioza 35 to 36, Robinson 30, Bulwer 95 to 100, Silver King 17, and Maryland coal, 12.00. The market was stronger this afternoon. Bulwer advanced to 1.10, Bodie to 8.25, Con. Va. to 28 and North Standard to 18; Hale and Norcross steady at 1.85, Sutor 15, Sierra Grande 80.

## For Greeley's Relief.

Washington, 17.—The President transmitted to Congress, to-day, a communication from the Secretary of War and Secretary of the Navy, setting forth the necessity for another expedition to Smith's Sound for the relief of the Greeley party, and a special message recommending an immediate appropriation for the purpose. Secretaries Lincoln and Chandler, in their letters to the President, state that the relief board recommend the purchase and fitting out of two steam whalers to leave New York on May 1st and reach the upper Navik about May 20th. A smaller advance ship, which may take greater risks, is also suggested.

Neither mental nor physical labor can be accomplished satisfactorily unless the system is in order. When you feel tired, languid, wearied without exertion, the mind slow to act, and requiring great mental effort, you can rest assured that your liver is not acting properly, and that nature requires assistance to help throw off impurities. There is no remedy that will accomplish this so mildly and yet effectually as "Prickly Ash Bitters." A trial will satisfy you of its merits.

## Hotel Burned.

Topeka, Kas., 17.—A private dispatch states that the Montezuma Hotel, Hot Springs, Las Vegas, N. M., was destroyed by fire, with all its contents. The fire originated in a cellar, which cut off the water supply before anything could be done. This hotel was one of the finest in the west. It belonged to the Santa Fe Railway company.

## The Russian Murderer.

St. Petersburg, 17.—The murder of Colonel Suderkin has exercised a terribly depressing effect among the higher Russian officials. The Emperor summoned Count Tolstoe, minister of the Interior and violently reproached him for his lack of energy and incapacity. Tolstoe thereupon resigned.

The claim that if women were allowed the ballot only the best men would be selected for office, is a proposition which should be received with many grains of allowance. If their judgment is so infallible it is strange they make so many mistakes in selecting husbands.
